There's a lot at stake in this year's election, let's talk!

- Will *Republicans* take control of the *US House* and *Senate* in a "wave" midterm election?
- Who will be Michigan's next *Governor*, the Democrat *Virg Bernero* or the Republican *Rick Snyder*?
- What will happen in *Michigan House* and *Senate* races, including local races such as *Kevin Cotter* (R) v. *Toni Sessoms* (D)?
- How many people will *vote* in the election? How much *money* is being spent and who is accountable? Is the *media* doing a good job covering the elections?
- What will be the *consequences* of the election? For example, how would *Republican control* of the US Congress affect the *economy*? How would a *Republican takeover* of Michigan government affect *higher education*? Will Americans' *trust in government* be restored?
